

NEOX

Metal Polish

DESCRIPTION

Specialized product for cleaning and polishing surfaces of all types of metal.

TECHNICAL SHEET

PROPERTIES

- Foaming detergent enriched with ultrafine quartz particles.
- Specifically designed for removing oxidations, discolorations, scratches, surface imperfections, dullness, limescale, etc., from metals and alloys such as steel, stainless steel, aluminum, copper, brass, and chrome.
- The special formula also makes it suitable for cleaning and polishing silver, copper, brass, etc., objects, leaving an anti-patina film that protects the surfaces from oxidation for a long time.
- Used in the window and door industry to remove scratches and abrasions from aluminum surfaces after assembly.
- Does not contain corrosive compounds, does not attack plastics, does not strip paint or discolor, and is safe for users.

APPLICATION AREAS

- Metalworking
- Automotive
- Window and door manufacturing
- Assembly and installation

APPLICATION

- Shake the can well for a few seconds.
- Spray a small amount of NEOF directly onto the surface to be treated.
- Rub with a dry microfiber cloth in circular motions until the surface is clean.
- Remove residues of dirt and oxidation.
- Polish with a dry cloth.

TECNICAL SPECIFICATIONS

Appearance	Creamy fluid
Color	Ivory
Odor	Slightly Ammoniated
Flash point	Non-flammable
Pressure at 20°C	6 bar
Density 15°C	1.02 +/- 0.03 kg/lt

PACKAGING

Code	926
Format	Aerosol 520 ml (netto 400 ml)
Box	12 pieces
Pallet	60 boxes
