

FLUX RED POWER

Powerful liquid drain unblocker rapid action

DESCRIPTION

Powerful acidic drain cleaner with high dissolving action. Specifically developed for sinks.

TECHNICAL SHEET

PROPERTIES

- Breaks down all clogs caused by organic substances such as cellulose, fats, hair, cotton, fur, organic compounds, sponges, cigarette butts, stagnant oil, etc.
- Thanks to its high density, it exerts a mechanical effect on the clog.
- The gradual and controlled activation of the solvents reduces the risk of dangerous reactions known as "flashback".
- It is almost odorless and does not produce harmful gases. Any odors come from the dissolution of organic substances.
- It does not damage copper, steel, or PVC pipes (except white PVC). It does not corrode rubber materials and does not harm septic tanks.

APPLICATION AREAS

- Professional kitchens
- Households
- Food industry
- Industrial sites
- Hotels
- Restaurants
- Schools

APPLICATION

- Remove excess water.
- Pour FLUX directly into the drain using a plastic funnel.
- Let it sit for 2-3 minutes, then pour 2 dl of water and wait for the reaction.
- Immediately flush with plenty of cold running water.
- Do not use FLUX in combination with other chemical products, and do not mix with other drain cleaners.
