

DESCRIPTION

Next-generation gel paint remover, free of methylene chloride. Effectively removes paints, coatings, enamels, impregnating agents, and primers. Penetrates deeply into any substrate, removing even older, hard, and resistant layers.

TECHNICAL SHEET

PROPERTIES

- Quickly removes old layers of paint and glue.
- Developed to remove all types of oil- and alkyd-based paints, emulsion paints, varnishes, and most two-component coatings.
- Can be used on metal, mineral, and wooden surfaces.
- Does not damage metal, mineral, or wooden substrates.
- Contains no methylene chloride.

APPLICATION AREAS

- Industry and industrial maintenance
- Construction and renovation
- Automotive sector
- Marine sector
- DIY and home improvement

APPLICATION

- Mechanically remove as much loose coating as possible (e.g. by scraping).
- Air, substrate, and material temperature must be between 0 and 30 °C, relative humidity below 85%.
- Use a disposable brush, flat or round. Do not use synthetic brushes.
- Apply a thick, even coat of REVO.
- Leave for approx. 10 to 60 minutes, or until the paint blisters and curls. Times are indicative and depend on the nature and thickness of the coating.
- Remove the lifted paint with a high-pressure water jet or a scraper.
- If several layers of old paint must be removed, the operation may need to be repeated.

Keep in cool, well-ventilated areas, protected from direct sunlight.

TECNICAL SPECIFICATIONS

Appearance	Pasty
Color	Pale yellowish
Odor	Characteristic
Density at 20° C	1.02 +/- 0.02 kg/l
Flammability	Flammable
Shelf life	18 months

PACKAGING

Code	150
Format	1 Kg can
Box	6 pieces
Pallet	180 boxes

Code	151
Format	5 Kg metal tin
Box	2 pieces
Pallet	60 boxes

Code	152
Format	25 Kg metal tin
Pallet	24 boxes
