

RUSH

Chlorine-Free Mold Cleaner.

DESCRIPTION

Sanitizing detergent for the removal of mold, algae, moss, and other stubborn encrustations from indoor and outdoor surfaces.

TECHNICAL SHEET

PROPERTIES

- RUSH is a powerful, non-foaming alkaline degreaser with sanitizing action, **chlorine-free**.
- Its high cleaning effectiveness is ensured by traditional alkaline-reacting auxiliaries, enhanced by special non-foaming substances with strong wetting action on organic residues.
- Unlike conventional detergents, which due to high surface tension cannot effectively penetrate pores and crevices, RUSH acts deeply, completely removing organic deposits and unpleasant odors.
- Compared to chlorine-based products, it does not release pungent odors and provides a strong oxidizing action without containing or releasing chlorine.

APPLICATION AREAS

Civil, residential, and communal environments

- Bathrooms, showers, toilets, and changing rooms.
- Domestic and professional laundries.
- Kitchens, technical rooms, and service areas.
- Stairwells, corridors, and common areas.

Outdoor areas and building structures

- Cellars, garages, and underground rooms.
- Balconies, terraces, loggias, and courtyards.
- Façades, perimeter walls, and external walls.
- Roofs, tiles, coverings, and weather-exposed surfaces.

Humidity-prone environments

- Areas affected by mold, algae, and organic deposits.
- Zones subject to water stagnation and unpleasant odors.
- Porous surfaces and hard-to-reach crevices inaccessible to traditional detergents.

APPLICATION

- Apply undiluted by spraying, brush, or sponge onto the surface to be cleaned.
- Leave to act for 3–6 minutes, then rinse thoroughly with water.
- In case of dry or stubborn dirt, repeat the procedure.
- Application temperature: min. 5 °C
- Careful and cautious application is required.

STORAGE

- Store away from light, direct sunlight, and heat.
- Keep in cool, well-ventilated areas.
- If stored for more than 12 months from delivery, the product may lose concentration.

TECHNICAL SPECIFICATIONS

Appearance	Liquid
Color	Yellow
Miscibility with water	Total
Odor	Light
Density at 20° C	1,05 ± 0,02 kg/lt
pH of 1% solution	11,0 +/- 0,3

PACKAGING

Code	127
Format	750 ml bottle with spray nozzle
Box	24 pieces
Pallet	32 boxes
