

SWIT

Odor Neutralizer

DESCRIPTION

Ready-to-use, long-lasting odour neutralizer with a high concentration of active ingredients combined with odour-neutralizing substances. Eliminates smells from sewers, pipes and waste.

TECHNICAL SHEET

PROPERTIES

- Long lasting powerful odor neutralizer, ready to use.
- High concentration of active ingredients which combined with high efficiency odor neutralizers ensures effective results with just a few ml of product.
- It acts extensively along the whole channelling so that bad smells are not carried in other places.

APPLICATION AREAS

- Professional kitchens
- Houses
- Agri-food industry
- Waste management
- Industrial sites
- Municipalities
- Hotels
- Restaurants
- Schools

APPLICATION

Sink

In the evening, pour two cups full of SWIT directly into the drain and leave to act overnight.

Drainage pipes and sewer systems

Pour, spray or add SWIT dropwise directly into the pipes and inside the sewer system.

Filtration tanks and aerators

Inject SWIT directly into the pipe that leads to the source of the bad smell. The amount of product needed depends on the temperature, the air movement and the smell intensity.

Spray SWIT also on the source of the bad smell letting the moving air to carry it over the entire area to be treated.

Garbage and refuse collection trucks

Spray SWIT directly on the source of the bad smell.
