

# RUSH PRO

## Chlorine-Free Mold Cleaner.

### DESCRIPTION

Sanitizing detergent for the removal of mold, algae, moss, lees residues, and other stubborn encrustations from indoor and outdoor surfaces.

### TECHNICAL SHEET

### PROPERTIES

- RUSH PRO is a powerful, non-foaming alkaline degreaser with sanitizing action, **chlorine-free**.
- Its high cleaning effectiveness is ensured by traditional alkaline-reacting auxiliaries, enhanced by special non-foaming substances with strong wetting action on organic residues.
- Unlike conventional detergents, which due to high surface tension cannot effectively penetrate pores and crevices, RUSH PRO acts deeply, completely removing organic deposits and unpleasant odors.
- Compared to chlorine-based products, it does not release pungent odors and provides a strong oxidizing action without containing or releasing chlorine.

### APPLICATION AREAS

#### Civil and industrial environments

- Bathrooms, showers, and laundries.
- Cellars, balconies, terraces, and façades.
- Roof tiles, stone slabs, and concrete.
- Masonry works and flooring.

#### Wineries

- Removal of lees residues, sludge, mold, and organic substances from surfaces.
- Sanitization of vats, containers, machinery, processing areas, and stainless-steel tanks.
- RUSH PRO also provides an effective descaling action.

#### Food industry

- Degreasing and sanitizing of equipment and surfaces.
- Effective removal of oils and fats without emitting the unpleasant odors typical of chlorinated products.

### APPLICATION

- Apply undiluted by spraying, brush, or sponge onto the surface to be cleaned.
- Leave to act for 3–6 minutes, then rinse thoroughly with water.
- In case of dry or stubborn dirt, repeat the procedure.
- Application temperature: min. 5 °C
- Careful and cautious application is required.

### STORAGE

- Store away from light, direct sunlight, and heat.
- Keep in cool, well-ventilated areas.
- If stored for more than 12 months from delivery, the product may lose concentration.

### TECHNICAL SPECIFICATIONS

Appearance	Liquid
Color	Yellow
Miscibility with water	Total
Odor	Light
Density at 20° C	1,05 ± 0,02 kg/lt
pH of 1% solution	11,0 +/- 0,3

### PACKAGING

Code	128
Format	5 L canister
Box	4 pieces
Pallet	24 boxes
